Windows Installation Instructions

By default, Python does not come installed on the Windows operating system. Download the Python installer from the Python downloads page at https://www.python.org/downloads. Click on "Download Python 3.x.x." to download the installer. Double click the file to start the installation process. Simply keep clicking on "Next" to accept all of the defaults. If you are asked if you want to install software on this computer, click on "Yes." To exit the installer and complete the Python installation, click on "Finish."

Python 3.4.1 Setup

Select Destination Directory

Please select a directory for the Python 3.4.1 files.

Python34 | Up | New

C:\Python34\

Python 3.4.1 Setup

Complete the Python 3.4.1 Installer

Special Windows thanks to:
Mark Hammond, without whose years of freely shared Windows expertise, Python for Windows would still be Python for DOS.

Click the Finish button to exit the Installer.
